- 5 Tickets for 2D films are more expensive than tickets for 3D films. _____

The return of 3D

3D films aren't a new idea. They were in our cinemas 50 years ago. A lot of film fans didn't like the bad quality and there weren't many 3D films. Now many of our favourite films are in 3D, so why did the film-makers decide to try again?

3D films sell tickets and make more money for the cinemas. Film fans enjoy wearing the special glasses. It's more exciting than watching a 2D film.

The best thing about 3D films is that they're fun. The worst thing is that tickets for 3D films are always more expensive than tickets for 2D films.
