This is the beginning of the school year so let's start
with amazing and surprising news...

When you are at school
how do you know it's time to go to class?

Let's see if it is the same for other students...

IS THIS THE END OF THE SCHOOL BELL?

A school in Salford has
replaced its bell with music
to mark the beginning and
end of lessons...

For students at St Ambrose Barlow High School in Salford the school bell is no longer part of their day. It has been replaced with music. A 30-second instrumental version of a Beatles song or a track from the Lion King now marks the beginning and end of lessons. Some days the school has a theme – Abba, film soundtracks and disco have all been popular. Students can also make requests.

"I want students to like being at school and that means making it enjoyable, even how it sounds," says head teacher Marie Garside. "The students love the music. They really listen to the songs and often ask what certain tracks are so it creates an opportunity to teach them something."

The idea looks like it could catch on. Garside says she's had a lot of calls from other schools interested to find out more.

Here's a student's opinion:

"I think it has really worked
because bells are a little bit
more alarming. It's nice to
walk out of class and listen
to some theme music. It's a
nice transition."

EXTREME SPORTS

Freestyle Scootering is a relatively new extreme sport which involves using kick scooters to perform freestyle tricks, in a manner similar to skateboarding and BMX freestyle.

This activity is known as **wall trampoline**. Part gymnastics, part parkour, it is an emerging sport. The participants call themselves bouncers. They have big plans for the sport.

"The ultimate goal is to have wall trampoline in the X-Games," said Julien, a computer science student and professional trampolinist.

All you need to do **freestyle slacklining** is a sort of nylon or polyester webbing. You can do it in schools, parks or streets. You can bounce and do extraordinary moves as if you were on a narrow trampoline.

BRITISH
ST FOOD

The importance of street food has increased so much that there is an annual gathering of street food vans, stalls and trailers coming to the UK from different European countries. It's a kind of food festival. There are winners in different categories such as: best main dish, best sandwich, best pie, best dessert, best drink, ...

Restaurant owners don't like the idea of having stalls selling food just outside their door. They say they affect their business very much. They sell their food cheaper because they pay no rent or rates³. On the other hand, street food vendors⁴ say they don't interfere with restaurants because their food is different and they think they shouldn't pay the same rates because they work on the street.
