FASHION ON WHEELS

*Sidewalks are
becoming catwalks...*

FASHION ON WHEELS

Sidewalks are becoming catwalks...

In 2010, **Stacey Steffe** and **Jeanine Romo**, the owners of the popular LA-based **Le Fashion Truck**, were among the first to build a boutique women's fashion truck. Steffe got the idea while she was selling vintage clothes at a farmer's market. She saw a food truck and thought it would be a good idea to do the same with clothes. She went into business with jewellery designer Jeanine Romo. They sell clothes, jewellery, handbags, accessories and more aboard the pink truck and they also have a dressing room.

Fashion Trucks are a shopping revolution!

These pop-up shops are taking over cities all across the country, from Los Angeles to New York and every town in between. Mobile shops which once were potato-chip delivery vans, taco or hamburger trucks or bookmobiles are hitting the streets and they are a creative way of bringing the products to the customers' front door.

Today, there are between 300 and 400 nationwide.

~
They offer clothes, shoes, beauty products, technology, flowers and even pet accessories. The trucks use social media, like Facebook and Twitter, to let people know where they will be located on any particular day.

"I think mobile shopping has an advantage because you don't have to wait for your customers to come to you. You can go to them,"
said Jennifer Kaplan, owner of the Flower Truck.

Tick True (T) or False (F).

1. Mobile shopping is done on new trucks.
2. You can shop at Le Fashion Truck in Los Angeles.
3. People can't try on the clothes in the truck.
4. They use social media as a way to advertise their business.

| 4. to be all over the shop | ● | ● | d. to go from shop to shop and compare prices before deciding to buy something |

Famous shops in London

Hamleys is one of the most impressive and famous toy shops in the world. It has seven floors and more than 40,000 toys! It attracts around five million visitors every year. The adventure began in 1760 as “Noah’s Ark”, when William Hamley set out to open the best toy shop in the world. Hamleys has been famously located on Regent St in London’s West End since 1881.

What toys would you like to see at Hamleys?

“All things for All People, Everywhere” is Harrods motto.

Harrods is a must-see department store for any tourist in London and it is probably the most famous shop in the world! It opened in 1849 when Henry Charles Harrod opened a small grocery shop. Today Harrods is still located in Knightsbridge and there you can really buy anything you want.

Top TV Series

There are lots of TV series which have been a worldwide success... Teenagers all over the world have watched them season after season... Let's find out a bit more about them.

Premiere: September 2007

Storyline: Roommates Leonard Hofstadter and Sheldon Cooper are brilliant physicists who live in Pasadena. Their best friends are two other scientists, Raj Koothrappali and Howard Wolowitz. All of them are geeks and socially awkward, but extremely funny to watch. Penny lives across the hall from Leonard and Sheldon. She is a waitress and an aspiring actress and Leonard's true love. She is not as brilliant as her friends, but she can certainly teach them a thing or two about real life.

Sheldon's catch phrase:
"Bazinga!"

The Big Bang theory has been a success because people find the characters hilarious and it is full of very witty jokes.

modern family

The show is very popular because people can relate to the family situations and the characters talk directly to the audience, which is unusual and hilarious.

Premiere: September 2009

Storyline: The series follows the lives of an American family from LA. Jay Pritchett is married to a beautiful and much younger Colombian wife, Gloria. He has

got a very fashionable and mature stepson, Manny. Jay and Gloria have a baby boy called Joe. Jay has also two other children from his first marriage: Claire and Mitchell. Claire Dunphy and her goofy husband, Phil, have three children: fashionable Haley, smart Alex and not-so-smart, but funny Luke. Mitchell Pritchett, a lawyer, and his bigger-than-life partner, Cameron Tucker, adopted a Vietnamese baby, Lily.

At first, the series was to be called "My American Family".

Curiosity

Doctor Who is one of the longest-running shows in British television history; there have been eleven Doctor Whos so far.

[https://answers.yahoo.com \(adapted\)
accessed in January 2015](https://answers.yahoo.com (adapted) accessed in January 2015)

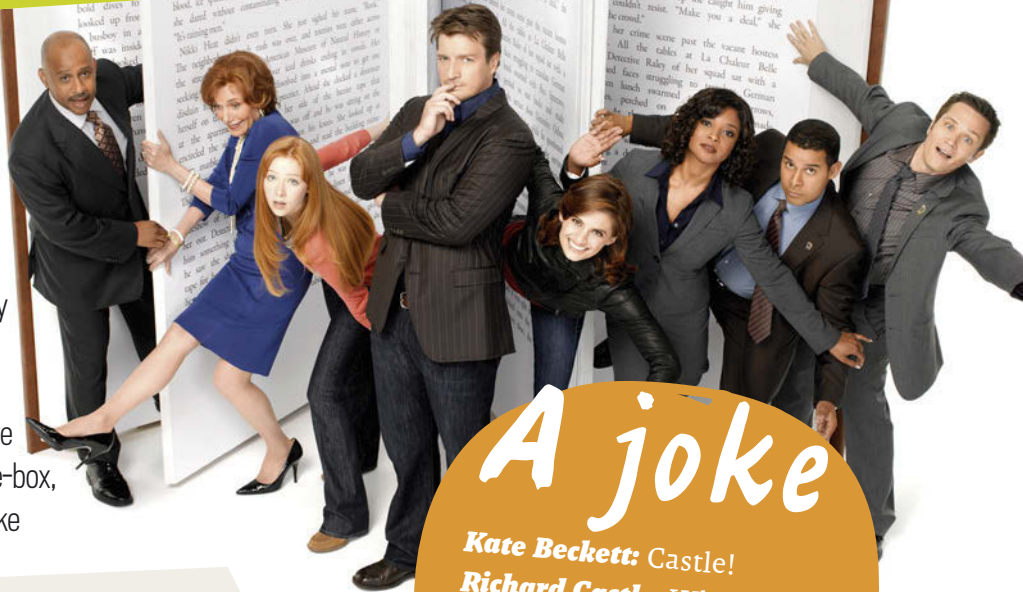

Premiere: November 1963

Storyline: The Doctor is a Time Lord. Time Lords are aliens who come from a planet named Gallifrey. They look very much like humans, but there are several differences, for example they have two hearts and a respiratory bypass system. Time Lords have mastered travel through time and space in a device called a TARDIS. It looks like an old London Telephone Police Box. Time Lords are able to regenerate, which means that when they are about to die, they can change every cell in their body and become a new person. The Doctor and his companions fight against crime and set out to fix everything.

CASTLE

Premiere: March 2009

Storyline: A very successful mystery novelist, Richard Castle, tags along with an NYPD homicide investigation team for research purposes. The team leader, Kate Beckett, has to put up with his out-of-the-box, loud personality and the two of them make people laugh.

A joke

Kate Beckett: Castle!

Richard Castle: What?

Kate Beckett: Crime scene. Dead body. Little respect here.

Richard Castle: I don't think he can hear me.

Do you know the names of the following characters?

What is the name of the series?

Nature rocks!

Newark's Oliver Street School wins "National Samsung Solve for Tomorrow" contest

Oliver Street School has been named one of five winners in the National Samsung Solve for Tomorrow contest,

a competition that asks students to use STEM (Science, Technology, Engineering and Maths) to work out solutions for environmental problems in their community.

The Oliver Street Students' project "Guarding the Water Supply" is about cleaning the polluted river, which runs through their city. They designed a system of sewer grates to filter the street rubbish that flows into the river, especially after heavy rains. The school has won \$140,000 in technology for the school.

Schools turning Green

More and more schools are carrying out projects to make students aware of environmental problems and to show them the need to take action.

Have you heard about the new Island in the North Pacific Ocean?

Well, it's not a real island. It's a floating one made of a high concentration of plastic pollution. The amount of plastic bottles, bags, etc. accumulates there because they don't wear out, they just break into little pieces damaging ecosystems and entering food chains. It's a kind of landfill in the Pacific Ocean three times the size of the UK.

19-YEAR-OLD INVENTS SOLUTION TO CLEAN UP THE OCEAN

Boyán Slat, a Dutch environmentalist and aerospace engineering student, invented a way to clean the plastic from the oceans when he was just 19. He invented a mechanism to catch plastic using the ocean currents. Then he founded the "Ocean Cleanup Foundation" to develop his idea. Boyán said that he first became aware of this serious problem when he was diving in Greece and came across more plastic bags than fish. That's when he decided he had to do something to solve the problem.

Creative recycling

Recycling can be an expression of art: it's all about using waste to create different, new and useful things. Here are two examples: boots you don't use anymore transformed into flower pots and flip-flops made of old newspapers.

Don't
Ctrl+Alt+Del
e-waste.
RECYCLE!

Why is e-waste such a serious and dangerous problem?

Do you know what happens to your mobile phone, tablet and iPod when you throw them away? Where do they all go?

They end up in waste landfills. This is very dangerous because electronic equipment contains toxins which may cause terrible diseases like cancer and environmental damage.

- **How many tech devices** (TV, washing machine, laptop, mobile phone, iPad, video games,...) **does your family have?**
- **What do you do with them when you buy new ones?**

So what should you do?

- Don't throw tech devices away. Everything can be recycled. Besides, toxic chemicals do a lot of harm.
- Give your devices to someone else that may go on using them. Very often they are still working when we buy new ones...

Technology goes green too!

Nowadays technology is reinventing itself in order to become environmentally-friendly.

Corky, the little brown mouse

Corky, the little brown mouse, is a wireless mouse. Named corky due to its cork design, it requires no batteries to stay powered. It generates its required energy by using the movement of your hand as you use the mouse.

SONG!

Remember *Despicable Me II*?
Well, here is the song from the film!

Happy

Fill in the blanks with the Minions' help.
Then listen to check. Have fun!

It might seem **a.** what I'm about to say
Sunshine she's here, you can take a break
I'm a hot air balloon that could go to **b.**
With the air, like I don't care baby by the way

[Chorus]

Because I'm happy
Clap along
if you feel like a **c.** without a roof
Because I'm happy
Clap along
if you feel like happiness is the **d.**
Because I'm happy
Clap along
if you know what happiness is to you
Because I'm happy
Clap along
if you feel like that's what you wanna do
Here come bad **e.** talking this and that, yeah,
Well, give me all you got,
and don't **f.** it back, yeah,
Well, I should probably warn you
I'll be just **g.** , yeah,
No offense to you, don't waste your **h.**
Here's why

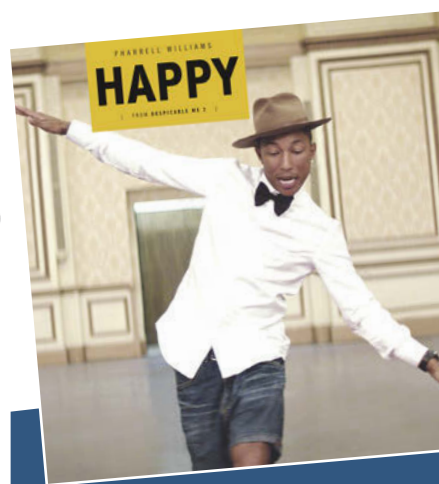

[Chorus]

(Happy)
Bring me down
Can't nothing
Bring me down
My level's too high
To bring me down
Can't nothing
Bring me down
I said (let me tell you now)
Bring me down
Can't nothing
Bring me down
My level's too high
To bring me down
Can't nothing
Bring me down
I said

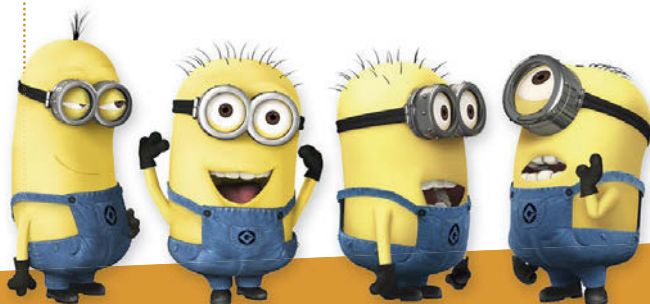

[Chorus x2]

(Happy) [repeats]
Bring me down...
can't nothing...
Bring me down...
my level's too high...
Bring me down...
can't nothing...
Bring me down,
I said

[Chorus x2]

"Happy" is a song written, produced, and performed by American singer and producer **Pharrell Williams** from the *Despicable Me 2* soundtrack album. It also served as the lead single from Williams's second studio album, *Girl* (2014).
