

# Using the resources

## Introduction

Your Turn 8 Teacher's Resource Multi-ROM includes a complete range of photocopiable worksheets, designed to support, practise and develop students' English language learning. This book includes:

- 9 pages **Basic level vocabulary and grammar worksheets** ★
- 18 pages **Standard level vocabulary and grammar worksheets** ★★
- 18 pages **High level vocabulary and grammar worksheets** ★★★
- 9 pages **Communicative pairwork activities**
- 9 pages **Cross-curricular worksheets**
- 9 pages **Festivals and celebrations projects**

You can use the worksheets with the whole class or to meet the needs of individual students.

The answers for all of the worksheets (excluding the communicative pairwork activities) can be found at the end of this book.

The different sections of the book are clearly divided by tabs.

### Basic level vocabulary and grammar worksheets ★

This section includes nine pages of worksheets: one worksheet for each unit of the *Livro do Aluno*.

These worksheets practise the vocabulary and grammar from the *Livro do Aluno*. However, the exercises are strongly supported and they are suitable for students who have found the activities in the *Livro do Aluno* difficult.

### Standard level vocabulary and grammar worksheets ★★

This section includes eighteen pages of worksheets: one vocabulary worksheet and one grammar worksheet for each unit of the *Livro do Aluno*.

These worksheets practise the vocabulary and grammar from the *Livro do Aluno* at an approximately similar level.

They are more challenging than the basic level worksheets.

### Higher level vocabulary and grammar worksheets ★★★

This section includes eighteen pages of worksheets: one vocabulary worksheet and one grammar worksheet for each unit of the *Livro do Aluno*.

These worksheets practise the vocabulary and grammar from the *Livro do Aluno*, but at a higher level. The exercises are generally more demanding than the *Livro do Aluno* and include more sentence-level practice.

The higher level worksheets introduce some new vocabulary, either actively or passively, to develop comprehension skills. They are designed to offer an even greater challenge.

## **Communication: Pairwork**

This section includes nine pages of pairwork activities: one activity for each unit of the *Livro do Aluno*. These activities are designed to be used in the classroom.

Photocopy each worksheet and cut it along the dotted line. Give one half to Student A and the other half to Student B. Students ask each other questions to find out information.

Each activity has been designed to provide additional communicative practice and interest for your students.

## **Cross-curricular worksheets**

This section includes nine pages of worksheets: one worksheet for each main unit of the *Livro do Aluno*.

These worksheets link the topic of the corresponding *Livro do Aluno* unit with the 8.<sup>o</sup> and curriculum in other subjects, helping students to explore a wide range of topics through the medium of English. New lexis is introduced, with one dictionary or vocabulary exercise on each worksheet, together with strategies for training students in approaching unfamiliar vocabulary in reading texts. Each text is also exploited for comprehension work.

## **Festivals and celebrations projects**

This section contains three projects, designed to provide cultural information about different festivals and celebrations throughout the Anglophone world.

Each project contains vocabulary and reading work so that students absorb information about the topic and have the appropriate language to complete the final task.

The final task is designed to encourage creative thinking from students of all levels.

Each project is accompanied by a page of teaching notes.

## **Pronunciation bank**

This section contains the International Phonetic Alphabet 'sounds and symbols' chart for reference, and three pages of pronunciation activities.

There are three pronunciation activities per main unit of the *Livro do Aluno*, focussing on sounds which have been used in the unit. All activities are accompanied by audio tracks which are provided on the Tests and Resources Multi-Rom and the Class Audio CD 4.

The activities are designed to provide models of the target sounds, followed by practice in discerning and producing the sounds.
